

NEW TFT Module Suitable for Color Displays

DLC Display (DLC), introduced the new 3.46" TFT module composed of a color TFT-LCD panel, driver ICs, FPC and backlight unit. This module is best suitable for digital equipment which require a color display, such as: handheld devices, navigation devices or video systems.

The module is equipped with high resolution (340 x RGB x 800), full-directional viewing and a high temperature range from -20°C to +70°C.
