

NEW TFT Module Suitable for COLOR Displays

DLC Display (DLC), introduced the new 4.6" TFT module composed of a color TFT-LCD panel, driver ICs, FPC, and backlight unit. This module is best suitable for digital equipment which need a color display, such as, a mobile phone device, mobile navigators or video systems.

The module is equipped with high resolution (640 x RGB x 150), full directional viewing angles and a high temperature range from -30°C to +80°C.
