

32" High Brightness Outdoor Android LCD Monitor

GMS-3200CAZ

Right Message At Right Time

Digital Signage is the remote-controlled distribution and playback of digital content (TV programs, advertising, menus, and every sort of information) on networks of displays. These displays can range from digital billboards to much smaller screens, either at a single location or across multiple sites. It's all about targeting the audience with relevant information. Digital signage enables users to display their messages more dynamically and targeted.

GMS has demonstrated a Digital Signage application on android platform. The application provides the features of updating the content from remote web browser, playback of video content, image, HTML web pages and scrolling text messages.

Key Features:

- Android 9.0 operating system
- Rk3399, Dual-core Cortex-A72, 1.8GHz
- 2/4GB DDR3 + 8/16 GB Flash
- 802.11a/b/g/n/ac internal Wifi
- 4G/WIFI/WLAN Network connection
- Remote Management Software
- Portrait display mode
- 1080P Display output

Designed for:

- POS
- Hotel
- Self-service Terminal
- Public Information Display
- Hospitality
- In-vehicles And Transportation
