

43" Outdoor Android Network Digital Right Message At Right Time

GMS-430ODLYAZ

Digital Signage is the remote-controlled distribution and playback of digital content (TV programs, advertising, menus, and every sort of information) on networks of displays. These displays can range from digital billboards to much smaller screens, either at a single location or across multiple sites. It's all about targeting the audience with relevant information. Digital signage enables users to display their messages more dynamically and targeted.

GMS mbH has demonstrated a Digital Signage application on android platform. The application provides the features of updating the content from remote web browser, playback of video content, image, HTML web pages and scrolling text messages.

Key Features:

- Android 11 operating system
- Rockchip RK3399 Quad-core CPU
- 4 GB LPDDR4 + 32 GB Flash
- 802.11B/G/N/AC internal WiFi
- WIFI/WLAN network connection
- 1080P Display output
- Remote Management Software
- Portrait & Landscape display mode
- The battery life is 10 hours
- Low glare glass

Designed for:

- POS
- Hotel
- Self-service Terminal
- Public Information Display
- Hospitality
- In-vehicles And Transportation

43" Outdoor Android Network Digital
